

JIDAP 2019

From PhD to Associate professor (MCF)

Nathalie Girard

Univ. Rennes, CNRS IRISA

IntuiDoc team

UFR informatique & électronique (ISTIC)

My experience

Université de La Rochelle : L3I & UFR Sciences, Computer Sciences dept.

- **Master IMA**: 2008 - Informatique Mathématiques et Applications
- **PhD Computer Sciences**: July 2013
 - Oct. 2008 – Oct. 2011: **PhD student** – ‘Monitrice’
 - Oct. 2011 – Aug. 2012: **ATER** (50%)

Université de Tours: LI (RFAI) & Polytech'Tours, Computer Sciences dept.

- **Temporary teacher researcher positions**
 - Sept. 2012 – Aug. 2013: **ATER** (100%)
 - Sept. 2013 – Aug. 2014: **Contract teacher-researcher**
 - Sept. 2014 – Aug. 2016: **Post-doc**

DOD project

NeuroGéo

Université de Rennes: CNRS, IRISA & UFR Info. Elec. (ISTIC)

- Since sept. 2016: **Associate professor**

IRISA

IRISA

Apply for MCF position

- **(French) Requirements – see [Galaxie website](#):**

1. **Apply for qualification:**

1. According recommendations of each CNU (27 – 61): you should have a teaching experience!!
2. Register between September & October
3. Defend your PhD before mi-December
4. Write & send your qualification application file before mi-December
 - NB: Annual calendar on the website

2. **Apply for MCF position:**

1. Register on galaxie website to be alerted as soon as new job offer appears (poste au fil de l'eau)
2. For each position you want to apply for:
 1. Contact those responsible for research as well as for teaching !
 2. Write & send your application taking into account the exchanges you had with those in charge.

- **Recommendations:**

- Ask your colleagues for templates/examples of:
 - Qualification application file,
 - Position application file.
- Read and follow the CNU's recommendations (see websites)

Some tips (if you allow me)

- **Be curious:**
 - **Move** to see other structures: during your thesis, after your thesis, ...
 - **Try** to look at other research topics
- **Be proactive - Do not censor yourself too much:**
 - Not sure to want to teach
 - **Try** during your thesis!
 - Interested in a job offer but not sure your ideas correspond to the expectations
 - **Contact** the persons in charge !!!
 - Have research ideas? (linked to your PhD, or other topics)
 - **Discuss** with your colleagues (supervisors, ...) to **submit a new project** and so 'build' your own post-doc position
